COLOP e-mark® 3-colour ink cartridge C2 – Product data sheet and description

Short description

The COLOP 3-colour ink cartridge C2 offers imprints in full-colour range and excellent printing results from the first imprint.

It is especially adapted for the use with COLOP e-mark, e-mark create and e-mark go.

Usage

The ink cartridge is designed exclusively for use with COLOP e-mark devices. To use it, insert the cartridge into the device as described in the Quick Setup Guide (found in the packaging) when using it for the first time. Never touch the contacts or print head. To ensure consistently high print quality, we recommend regular use of the device. If there are deviations in print quality, the print head can be cleaned using the app or a damp cloth. Instructions for this can be found in the help centre (print head cleaning instructions). If the cartridge or one ink colour becomes empty, it can be changed in a few simple steps.

Any handling other than that described in this document does not comply with the purpose of this product.

The product is not a children's toy.

Product features

- 3-colour ink cartridge (Cyan, Magenta and Yellow) for multicolour imprints
- Up to 1,500 imprints
- Easily replaceable
