COLOP e-mark® Ribbon Guide 10 – Product data sheet and description

Short description

With the Ribbon Guide 10, ribbons up to 10 mm wide can be easily and creatively personalised using the COLOP e-mark. Whether for birthdays, celebrations or decorations, beautifully designed ribbons are always an eye-catcher.

Usage

The ribbon guide is used to print on ribbons or long narrow objects. To do this, the ribbon or the object to be printed is threaded into the ribbon guide, the COLOP e-mark is inserted into the ribbon guide and printing is carried out with a sideways movement. This works best if the ribbon is held firmly. To print on longer ribbons, use the 'continuous marking' function in the app.

Note: The objects to be printed with the COLOP e-mark ribbon guide 10 are narrower than the maximum printing area of the COLOP e-mark. To avoid unnecessary stains, make sure that the design of the printouts is appropriate or use one of the templates specially designed for this width in the e-mark app or on our website.

Any handling other than that described in this document does not comply with the purpose of this product.

The product is not a children's toy.

Product features

- For a bandwidth of 10 mm
- Perfect tool for printing on narrow objects
- Lightweight and robust design
- Perfect to use with the COLOP e-mark Cotton Ribbon 10 mm
