

COLOP e-mark® Ribbon Guide 15/25 Set - Product data sheet and description

Short description

With the Ribbon Guide, ribbons can be personalised easily and creatively using the COLOP e-mark. The set includes two ribbon guides in sizes 15 and 25 mm. Whether for birthdays, celebrations or decorations, beautifully designed ribbons are always an eye-catcher.

Usage

The Ribbon Guide is used to print on ribbons or long narrow objects in two sizes. To do this, the ribbon or the object to be printed is threaded into the Ribbon Guide, the COLOP e-mark is inserted into the Ribbon Guide and printing is carried out with a sideways movement. This works best if the ribbon is held firmly. To print on longer ribbons, use the 'continuous marking' function in the app.

Any handling other than that described in this document does not comply with the purpose of this product.

The product is not a children's toy.
